### Personal Profile

A passionate, professional and approachable frontend developer with 7 years of experience. I'm known for my level of dedication, taking ownership of any project assigned to me, constantly teaching myself new skills and my friendly nature.

### Web Development

I have a degree in Economics, during formal education I kept computing and programming as a personal passion. I eventually began rapidly improving my web development skills in my own time using a wide combination of online resources.

### Skills

#### Technical skills:

- |                          |                                     |                      |

## **Work Experience**

### **Front End Developer: February 2020 to Present – Un.titled**

- ✓ Writing clean, efficient, maintainable and scalable code as well as Integrating software components and third-party libraries to enhance the user experience and functionality of each project.
- ✓ Freedom and flexibility are given to me in exchange for taking ownership of projects and delivering to spec and on time.
- ✓ Communicating clearly and concisely, my prior experience in the sales industry has honed my ability to adeptly engage with both clients and internal stakeholders
- ✓ Conducting thorough testing and debugging to ensure seamless functionality and user satisfaction.
- ✓ Staying updated with industry trends and emerging technologies in order to be able to suggest innovative solutions.

### **Front End Developer: October 2017 to February 2020 – Propeller Digital**

- ✓ Propeller is a fast-paced pressurised environment with high coding standards, rigorous checks are in place for every line of code written.
- ✓ Managing time and projects effectively, along with excellent communication skills, was required, whether in writing, over the phone or in person.
- ✓ Being a part of such a strong, passionate team was inspirational and motivating, keeping me on my toes; they say 'steel sharpens steel'.
- ✓ Keeping up with the latest industry standards and exchanging ideas and research findings daily with other frontend team members.
- ✓ Good time management skills were essential. I was responsible for all time spent on any task or project, being logged and accounted for accurately.

*[Additional job history and portfolio available upon request.]*

## **Interests**

*Running, travelling, jiu jitsu and long hikes. Previous experience as a football club captain for 5 years, demonstrating leadership skills. Balancing sociability with appreciation for quiet moments.*
